

**Significant Changes to Public Review Draft – California Water Plan Update 2005
December 9, 2005**

Volume	Chapter	Changes to PRD
Highlights	General	<ul style="list-style-type: none"> • Updating Director's Message • Clarified purpose and relationship of three foundational actions to the two initiatives • Emphasized that scenarios are baseline conditions • Added text on climate change & Delta vulnerabilities
Highlights	Inside Cover	<ul style="list-style-type: none"> • Added DVD with introductory video "Water for Tomorrow".
Highlights	Page 2 (same as Figure 3-5 in Volume 1)	<ul style="list-style-type: none"> • Revised California Water Balance bar chart using different colors and added totals on top of cylinders.
Highlights	Page 6 (same as Figure 2-1 in Volume 1)	<ul style="list-style-type: none"> • Revised figure labels on pyramid diagram to match sub-headings
Highlights	Pages 14-15 (same as Figure 1-1 in Volume 2)	<ul style="list-style-type: none"> • Revised water benefits bar chart: updated numbers, revised legend and caption
1	2 Framework for Action	<ul style="list-style-type: none"> • Clarified purpose and relationship of three foundational actions to the two initiatives • Revised figure labels on pyramid diagram, Fig. 2-1 • Updated text and Box 2-5 on CALFED • Added Box 2-6 on Delta Risk Management Strategy and expanded discussion of Delta vulnerabilities • Added Box 2-9 on strategy for stable water funding • Added more near-term actions (also added to Ch 5)
1	3 California Water Today	<ul style="list-style-type: none"> • Revised Table 3-1 California Water Summary to include illustration of flow diagram • Updated text on CALFED • Added Box 3-3 on Pelagic Fish Decline • Added Figure 3-6 showing major regional inflows and outflows for water year 2000 • Updated list of DWR and Energy Commission reports
1	4 Preparing for Uncertain Future	<ul style="list-style-type: none"> • Expanded information on flood risks, Delta vulnerabilities, and global climate change • Emphasized that 3 scenarios are baseline conditions • Updated water demands estimates for 3 scenarios • Added Fig. 4-5 Percent Change of scenario demands • Added Box 4-7 summarizing two example response packages prepared by Pacific Institute and UC Santa Barbara/Rand using the analytical tool developed and applied by David Groves, et al for Update 2005
1	5 Implementation Plan	<ul style="list-style-type: none"> • Revised and expanded action items and performance measures for various recommendations
2	3 Ag WUE	<ul style="list-style-type: none"> • Updated water use savings of recoverable and irrecoverable flows based on CALFED Year 4 Comprehensive Study; and clarified water use efficiency in Colorado River QSA

**Significant Changes to Public Review Draft – California Water Plan Update 2005
December 9, 2005**

Volume	Chapter	Changes to PRD
		<ul style="list-style-type: none"> Extensive editing throughout
2	5 Conveyance	<ul style="list-style-type: none"> Added latest information on South Delta Improvement Package and its draft EIR/EIS
2	6 Desalination	<ul style="list-style-type: none"> Updated current, planned, and potential desalination plants
2	8 Economic Incentives	<ul style="list-style-type: none"> Added the issue of public funding for privately-owned water companies
2	17 Surface Storage – CALFED	<ul style="list-style-type: none"> Added estimates for the funding needed to complete the CALFED storage feasibility studies and the need to prioritize remaining studies
2	20 Urban Land Use Mgmt	<ul style="list-style-type: none"> Updated information on AB2717, Landscape Task Force
2	22 Urban WUE	<ul style="list-style-type: none"> Added information and draft recommendations from AB2717, Landscape Task Force Update water savings and cost estimates to reflect CALFED Year 4 Comprehensive Study
2	23 Water Transfers	<ul style="list-style-type: none"> Updated approved transfers under the QSA Updated implementation of transfers under the CVPIA
2	26 Other Strategies	<ul style="list-style-type: none"> Added information on the cumulative effects associated with crop idling and irrigated land retirement Changed name of transoceanic water bag strategy to water bag transport and storage
3	General	<ul style="list-style-type: none"> For each region, replaced 3 flow diagrams with new illustrated and schematic diagrams that act as legends for the water portfolio tables. Replaced the word “losses” with “flows” throughout the document. Updated data used in water portfolios and charts.
3	1 State Summary	<ul style="list-style-type: none"> New Figure 1-9 “Regional Inflows and Outflows for Year 2000” to show how water moved from one hydrologic region to another in average year 2000.
3	2 North Coast	<ul style="list-style-type: none"> Added information on dairies.
3	3 San Francisco Bay	<ul style="list-style-type: none"> Expanded discussion on agricultural water use in SCVWD service area. Updated information on development of IRWMP.
3	4 Central Coast	<ul style="list-style-type: none"> Added information on Whale Rock Reservoir. Added information on recycling projects in Monterey County. Added paragraph on Nacimiento Water Project.

**Significant Changes to Public Review Draft – California Water Plan Update 2005
December 9, 2005**

Volume	Chapter	Changes to PRD
3	5 South Coast	<ul style="list-style-type: none"> Revised data on MWDSC imports and deliveries. Revised Box 5-5 on “Key Elements of QSA” and made consistent with table in Chapter 11.
3	6 Sacramento River	<ul style="list-style-type: none"> Updated data in Figure 6-2 on Butte Creek salmon recovery.
3	7 San Joaquin River	<ul style="list-style-type: none"> Revised text to improve clarity.
3	8 Tulare Lake	<ul style="list-style-type: none"> Updated discussion of groundwater storage/recovery programs and exchanges.
3	9 North Lahontan	<ul style="list-style-type: none"> Updated discussion of the Truckee River Operations Agreement.
3	10 South Lahontan	<ul style="list-style-type: none"> Updated information on Mohave River Basin and Antelope Valley water agencies, facilities, groundwater, and planning efforts. Revised information on the Owens Lake restoration efforts.
3	11 Colorado River	<ul style="list-style-type: none"> Updated discussion of Salton Sea ecosystem restoration studies. Updated description of Colorado River agreements and QSA details. Added paragraph about Congressional Task Force to evaluate solutions to New River pollution.
3	12 Sacramento-San Joaquin Delta	<ul style="list-style-type: none"> Updated text on Delta Recreation Master Plan. Added text on recent Delta Regional Water Quality Management Plan.
3	13 Mountain Counties	<ul style="list-style-type: none"> Added description on Mokelumne River Forum. Revised urban water use estimate.
4	Background	<ul style="list-style-type: none"> The Advisory Committee View (NEW) (by Water Plan 2005 Public Advisory Committee)
4	Crop Water Use	<ul style="list-style-type: none"> The Amount of Water We Eat (NEW) (by John Letey and David Birkle) Originally published in Currents, A Newsletter of the University of California Water Resources Center (Winter 2003, Vol. 4, Issue 1) Limits to the Productivity of Water in Crop Production (NEW) (by Andrew Keller and David Seckler)
4	Data and Analytical Tools	<ul style="list-style-type: none"> Recommended Next Steps for Improving Quantitative Information for the California Water Plan (NEW) A Strategic Analysis Framework for Managing Water in California, September 2005 (REVISED) (by California Water and Environmental Modeling Forum) Quantified Scenarios of 2030 California Water Demand (REVISED)
